

OM SABLE

B.Tech Computer Science (3rd Year)

Pune, India

7499365218 | omsablee@gmail.com

GitHub: github.com/darky-boy (primary coding profile)

LinkedIn: linkedin.com/in/om-y-sable

SKILLS

Programming Languages: Python, C/C++, TypeScript

Web Development: HTML, CSS, React, Django

Databases: MongoDB

Cybersecurity: Password Security, Encryption Fundamentals, Secure Authentication

Tools & OS: Linux, Command Line, Git

AI & Developer Tools: GitHub Copilot, ChatGPT, AI-assisted debugging and documentation

Core Strengths: Problem Solving, Logical Thinking

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

JSPM NTC, Pune

2023 – 2027 (Expected)

PROJECTS

Passwolf – Secure Password Manager

React (TypeScript), Django, MongoDB

GitHub: github.com/yourusername/passwolf

- Developed a full-stack password manager with encrypted credential storage
- Implemented secure authentication and vault-based password management
- Designed REST APIs for credential handling and user access control
- Focused on security best practices including encryption and data protection

SkillBuddy – Career Guidance & Cybersecurity Learning Platform

React (TypeScript), Django, MongoDB

GitHub: github.com/yourusername/skillbuddy

- Built a web-based platform for career guidance and cybersecurity learning
- Integrated CTF-style practice modules for hands-on skill development
- Developed backend APIs and database models for scalable content delivery

NetHawk – Network Reconnaissance Tool (Linux)

Python, Kali Linux

GitHub: github.com/yourusername/nethawk

- Developed a Python-based network reconnaissance tool for Linux environments
- Implemented modules for network scanning and information gathering
- Designed for security testing and educational use
