OM Sable

SKILLS

Operating systems like kali , ubantu, windows , etc.

Tools : Nmap , Burpsuit , Nikto , Wireshark , etc.

C , C++ , Python , Java(basics) , tailwind , HTML , CSS , Bash , etc.

ABOUT ME

Enthusiastic 3rd-year B.Tech Computer Science student at JSPM College (SPPU University) with a strong interest in cybersecurity. Skilled in programming, networking fundamentals, and problem-solving, with a passion for exploring ethical hacking and information security. Actively building hands-on experience in cybersecurity tools and concepts while aiming to grow as a cybersecurity professional.

PROJECTS

Password Manager Web App
Tools: React.js, Tailwind CSS, JavaScript

- Built a secure password manager web application with features like password storage, copy-to-clipboard, and search functionality.
- Designed a responsive UI using Tailwind CSS for a clean and modern look.
- Implemented local storage handling in React for managing user credentials.
- Focused on improving security practices such as input validation and data handling.

Basic Vulnerability Scanning (Lab Project)
Tools: Nmap, Burp Suite

- Performed vulnerability scanning in a controlled lab environment.
- Identified open ports and tested for common web application flaws.

SKILLS SUMMARY
